PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of professional experience building production business applications and web systems. Proven track record at Moylan's Insurance delivering complex accounting and underwriting systems. Skilled across the full stack — Next.js, React, TypeScript, and PostgreSQL on the web side; VB.NET, SQL Server, and Crystal Reports in enterprise environments. Known for clean code, direct client communication, and end-to-end ownership of solutions.

TECHNICAL SKILLS

Frontend	Next.js · React · TypeScript · JavaScript · Tailwind CSS · HTML5 / CSS3
Backend	Node.js · Python / Flask · VB.NET · REST APIs · Server Actions
Database	PostgreSQL · SQL Server · Neon DB · Stored Procedures · pgAdmin · SSMS
Reporting	Crystal Reports · DevExpress · Recharts
Tools	Git · GitHub · Vercel · Render · VS Code · Visual Studio

WORK EXPERIENCE

Mid-Level Programmer

Sep 2023 – Present

Moylan's Insurance Brokers, Inc. | Makati City

- Develop and maintain complex accounting systems handling business-critical financial logic in production.
- Diagnose and resolve live system issues by tracing root causes across VB.NET code and SQL Server stored procedures.
- Communicate directly with end users to gather requirements and resolve concerns without supervisor escalation.
- Optimize stored procedures and database queries for performance, accuracy, and long-term maintainability.
- Promoted from Entry-Level after consistently delivering reliable, production-grade solutions.

Entry-Level Programmer

Sep 2022 – Sep 2023

Moylan's Insurance Brokers, Inc. | Makati City

- Built and maintained underwriting systems using VB.NET, SQL Server, and Crystal Reports in a live insurance environment.
- Handled data encoding, system maintenance, and end-user support for mission-critical insurance operations.
- Built foundational production experience working with complex business rules and real-world enterprise data.

PROJECTS

PCJ PC Store

Next.js · TypeScript · PostgreSQL · Tailwind CSS · Vercel

- Full-featured PC parts ecommerce platform with product catalog, cart management, checkout, and order tracking.
- Role-based auth with dedicated admin panel for inventory and order management; real-time stock status display.

Student Registration System

Next.js · TypeScript · PostgreSQL · Nodemailer

- Web-based enrollment platform with student, course, and subject management plus automated email notifications.

HR Employee Management System

Next.js · TypeScript · PostgreSQL · Tailwind CSS

- Complete HR platform with employee records, payroll computation, attendance tracking, and analytics dashboard.

POS & Inventory System

Python · Flask · Jinja · PostgreSQL · Render

- Point-of-sale system with real-time inventory, sales reporting, and receipt generation.

E D U C A T I O N

Bachelor of Science in Computer Engineering

Graduated 2022
